3. Project Plus

Chairman Max Walser declared the public hearing open regarding Project Plus.

Economic Development Board Chairman Tommy Hedrick addressed the Board and requested that they enter into a joint partnership with the Wallburg Town Council for an economic incentive contract for Project Plus, who has now been identified as Timco Aviation Services, Inc. He requested that Davidson County appropriate \$1,500,000.00 from its General Fund and partner with the Town of Wallburg to purchase property located at 5568 Gumtree Road, Lexington, as is further identified by Davidson County Tax Department as Parcel Number 0100200000038; containing 56.36 acres, more or less. Mr. Hedrick requested that the Board award an economic development incentive grant to the Company for twenty (20) years to be paid by Davidson County, provided the Company meets the requirements of the Contract as to investment, jobs and wages, with the grant beginning January of the first full year after the first full year of operation following the issuing of the Certificate of Occupancy. He further reported that if awarded, the grant will not exceed \$50,000.00.00 per year.

Barney Hill addressed the Board of Commissioners and spoke in oppositions to the awards of these economic incentives to Project Plus as it violates his principles that a company must not get back more than it pays in.

Chairman Max Walser declared the public hearing regarding Project Plus closed and requested that County Attorney Chuck Frye speak to the Board regarding the necessity of the three (3) Resolutions before it at this time.

Mr. Frye reported that the first Resolution was entitled "Preliminary Economic Development Incentive Resolution Authorizing Expenditure" and that this Resolution deals with the expenditure of funds by the County for this project as follows:

1. The County is authorized to expend up to \$1,500,000.00 of County funds to purchase the former Tyco site, with \$500,000.00 of said sum to be loaned to the Town of Wallburg as its contribution to the purchase price, for purposes of leasing said property to Timco Aviation Services, Inc. as part of the economic development incentive.
2. That the County and Town will lease said property to Timco Aviation Services, Inc. pursuant to the terms set out hereinabove and according to the provisions of a lease with said company.
3. The County be authorized to enter into an economic incentive agreement with Timco Aviation Services, Inc., with said business being awarded a grant of \$75,000.00 each year for twenty years, with the County paying \$50,000.00 and the Town of Wallburg paying \$25,000.00 of the said annual grant, provided that both the purchase of the property and other incentives are contingent on Timco Aviation Services, Inc., meeting the contractual requirements as to investment, jobs and wages.
4. Further, the County's obligations in this economic development project are contingent upon the following conditions:
 - a) That the owner of the Tyco tract enter into a land sale agreement acceptable to the parties;
 - b) That the Town of Wallburg contribute \$500,000.00 toward the purchase of the subject tract with Timco Aviation Services Inc. paying the balance of said purchase price;

well as compliance with the other applicable provisions required by North Carolina General Statutes § 158-7.1; and

J. ITEMS FOR INFORMATION/DECISION - *Deliberation*

Deliberation

1. Proclamation of October 2010 as Barbecue Festival Month

Stephanie Saintsing, Executive Director of the Lexington Barbecue Festival, addressed the Board and requested that October 2010 be proclaimed as Barbecue Festival Month and read the Proclamation that had been prepared regarding this matter.

On a motion by Commissioner Fred McClure and a second by Commissioner Cathy Dunn the Board voted unanimously 7-0 to proclaim October 2010 as Barbecue Festival Month. (Exhibit 8)

2. E-Verify

Commissioner Fred McClure addressed the Board and reported on the importance of E-Verify and that he felt that this process should be used by Davidson County government for any contracts awarded in excess of \$3,000.00, in that the contractor awarded the contract would register and participate in the E-Verify Program to determine the work eligibility status of employees performing services pursuant to the contract and that the same should apply to any subcontractors associated with the contract awarded. He read the Resolution that had been prepared regarding this issue. Commissioner Fred McClure stated that the program would not apply to any businesses within the County that do not contract with the County. He reported that he feels that

monies that are collected by Davidson County should be paid out to individuals that are legal United State citizens. Commissioner Billy Joe Kepley remarked that it is his understanding that Program H2A gives legal rights to illegal immigrants and is set up so that illegal immigrants can obtain employment. He suggested that the Board vote this issue down until further research can be completed on the impact of the Resolution. Commissioner Larry Potts commented that the guest worker permits issued out of Program H2A show up as certified when checked through E-Verify. Chairman Max Walser and Commissioner Don Truell both remarked that the penalty section of the Resolution was what caused them both concerns. Commissioner Larry Potts stated that both the Federal and State governments are using this process and questioned why we would want to pay County dollars to illegal immigrants. Commissioner Fred McClure reiterated that a contractor would have 15 days to come into compliance should a problem be found. Vice Chairman Sam Watford reported that his company has previously performed community development block grant projects and that there is a great deal of additional paperwork that is required by the contractor to comply with E-Verify in his experience and that he cannot support this Resolution until he finds answers to all of his questions. Commissioner Fred McClure reported that pursuant to this Resolution a contractor would only have to verify an employee at the outset of the contract, not for every payroll period. He reported that he does not feel that it is in the best interest of the County that County dollars continue to be paid to illegal immigrants, and that legalized Hispanics also do not want illegals to out working these jobs, driving the price of labor down.

A motion was made by Commissioner Fred McClure and seconded by Commissioner Larry Potts that the Board adopt the E-Verify Resolution as read by Commissioner Fred McClure. The Resolution failed to pass by a vote of two 2 votes for: Commissioner Fred McClure and Commissioner Larry Potts; and five votes against: Commissioner Cathy Dunn, Commissioner Billy Joe Kepley, Commissioner Don Truell, Vice Chairman Sam Watford and Chairman Max Walser. (Exhibit 9)

3. Application for Authorization – Qualified School Construction Bond (QSCB) Program

Assistant County Manager Zeb Hanner addressed the Board and requested authorization to complete and submit the application for authorization to issue Qualified School Construction Bonds (QSCB). Mr. Hanner reported the Davidson County Schools have been approved to apply for an additional \$10,000,000.00 in QSCB bonds and have requested permission from the Board of Commissioners to submit the application. Upon inquiry by Commissioner Larry Potts as to the reasoning for the blank application, Mr. Hanner reported

that he would have the Davidson County Schools complete the application and present the completed application for the Board's approval at the October 7, 2010, Informational meeting.

On a motion by Commissioner Billy Joe Kepley and a second by Commissioner Larry Potts the Board voted unanimously 7-0 to place this matter on the October 7, 2010, meeting of the Davidson County Board of Commissioners for approval of the submission of the application for authorization to issue QSCB bonds. (Exhibit 12)

6. Request to Schedule Second Public Hearing for Small Cities Community Development Block Grant (CDBG) Application for Astran Drive Sewer Project

County Manager Robert Hyatt addressed the Board regarding this matter and reported that the County has received notification from the North Carolina Department of Commerce, Division of Community Assistance, to submit the full application for the Astran Drive sewer project. He reported that a requirement

for the submission of this application is that the Board of Commissioners hold a second public hearing for the specific project, with a notice to include a description of the proposed project, including the proposed project location; activities to be carried out; and the total cost of the activities. Mr. Hyatt requested that this public hearing be scheduled for the October 12, 2010, meeting of the Davidson County Board of Commissioners.

On a motion by Commissioner Don Truell and a second by Commissioner Larry Potts the Board voted 7-0 to approve the scheduling of a second public hearing for the Astran Drive sewer project for the October 12, 2010, meeting of the Davidson County Board of Commissioners. (Exhibit 13)

County Manager Robert Hyatt addressed the Board and reported that he had received an email from the desk of Gene Conti on today's date which requested that participants in the I-85 Yadkin Bridge Project adopt a letter of concurrence to proposed changes in the project. Alcoa has to obtain a permit to allow construction of the project through FERC. NC DOT has made changes to the build project; therefore, FERC has required that the permit process by Alcoa be recompleted. FERC wants concurrence that the County is satisfied with the changes made to the bridge project. Mr. Hyatt reported that the County needs to send the letter of concurrence to FERC by September 30, 2010, to avoid a possible delay in the bridge construction.

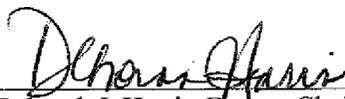

On a motion by Chairman Max Walser and a second by Commissioner Don Truell the board voted unanimously 7-0 to issue a letter of concurrence to FERC regarding the changes made to the I-85 Yadkin River Bridge Project.
